March 2021

PRESS RELEASE

Extraordinary: The new Lebolit (CPL) Bog Oak from LEBO

The trends in 2021 are dark kitchen fronts and metal accents, combined with light-coloured woods or grey.

Our **Lebolit (CPL) Premium Bog Oak** surface has everything that is needed for the new, dark trend: A wonderful, almost black surface with a slight metallic sheen. Noble and modern.

The Lebolit PREMIUM Bog Oak is available with **vertical or cross décor** and **squared or postformed edge**.

By adding high-quality strips in stainless-steel finish, your door transforms into a remarkable highlight in your room. Additionally, we offer a variety of light openings and glazing types, as well as functional door sets with sound reduction, climate class and/or burglar resistance. These are the very reasons why the Lebolit (CPL) Premium Bog Oak Surface is so versatile for living and commercial spaces.

As standard this model comes with 2-parted hinges, a tubular-chipboard core and a BB lock. If you prefer a cleaner look, you may also order your door without keyhole drilling and combine it with discreet handles in stainless steel or the new smart2lock. Since smart2lock comes with a locking system integrated in the handle, it is possible to lock and unlock without a key or a WC thumb turn.

About Lebo GmbH

Founded in 1871, LEBO is one of the oldest manufacturers of interior doors and frames in Germany. As a medium-sized, family-run company and full-range supplier, LEBO produces standard doors, style doors, design doors and functional doors in a variety of surfaces. In addition, LEBO offers extensive accessories, full-glass doors and e.g. the freedom to make special requests from a quantity of 1 door only. LEBO produces at two locations in Germany and delivers "Quality made in Germany" to over 40 countries worldwide. The company is now 150 years "young".
